

INFORMATION FOR AUTHORS

The following guidelines are intended to reduce the delays and printing costs. **The Editorial board manages the publication voluntarily and does not get any secretarial assistance.** The authors are thus asked **to follow them strictly**; manuscripts which do not satisfy these requirements may be returned to authors without consideration. For correspondence, use the following address: Société entomologique de France, Rédaction du *Bulletin*, 45 rue Buffon, F – 75005 Paris. E-mail: amantill@mnhn.fr and jpierre@mnhn.fr.

I. AIMS AND SCOPE

Publication in *Bulletin de la Société entomologique de France* is free of charge for the members of the Société entomologique de France (who have paid their contribution). In case of collaboration, the first author must at least answer this requirement. For non-members, publication fees are 70 € for an article between 1 and 4 pages, plus 10 € for each additional page. They are encouraged to join the Society instead.

Manuscripts should be submitted in a Microsoft Word compatible format (DOC or RTF), by e-mail to the Editor-in-Chief (amantill@mnhn.fr) with a copy to the Assistant Editor (jpierre@mnhn.fr) or on CD-ROM at the address above.

The *Bulletin* is a peer-reviewed journal. Manuscripts are examined by referees and by the Editorial board before acceptance or rejection.

The *Bulletin* publishes original manuscripts about **Insects (Hexapoda), Arachnida and Myriapoda**: taxonomy, morphology, phylogeny, ecology, ethology, faunistics, biogeography. Articles and short notes concerning the fauna of France (including French overseas territories) are welcome.

When new taxa are described, authors have to follow strictly the rules of the last version of the *International Code of Zoological Nomenclature*. Primary types (holotypes) of newly described taxa should be deposited in a public institution.

“Short communications” do not usually exceed a printed page (including or not illustrations). They appear in the Contents and are included under their title in the annual Tables. Reprints are not provided.

Papers published in the *Bulletin* may be written in French, English, German, Spanish or Italian. Opinions emitted in the *Bulletin*, whatever their nature, are under responsibility of their authors only.

II. MANUSCRIPT LAYOUT

Authors always have to refer to recent issues of the Bulletin to perfect the general structure of their text.

First names and surnames of all authors must be given in the title page followed by their complete address and e-mail.

Whatever the language of the paper, it is necessary to provide an **abstract and title in French** (the Editorial board may help) **and one in English**. The abstract should note all nomenclatural acts made in the article; it is followed by a list of **keywords** in English (in this list it is not necessary to repeat words of the title, especially names of taxa). Names of new taxa must not be cited in the title nor in the keywords.

Name of author and date of description must be given for each taxon at its first mention in the text. Names of genera, species and subspecies should be italicized. Dates should be written as follow: 15.VIII.1977. A single type of font will be used. **No writings in bold or capitals.**

In the text, give references in the following forms: Martin (1980), (Martin, 1980a, b), (Martin & Durand, 1980), (Martin *et al.*, 1980), etc. All literature cited in the text must be listed at the end of the article in the references. Author names should be arranged in alphabetical (and chronological if applicable) order in the reference list. The list of references must include all publications cited in the text but only these. Titles of periodicals in italics must be given **in full**, not abbreviated. **References**

should strictly conform to the following: “Grassé P.-P., 1986. – L'évolution vue à travers les insectes. *Bulletin de la Société entomologique de France*, **94** (1-2) : 5-18” or “Stúkowsky Z., 1989. – *Les Planipennes tétraptères de France*. Paris: Les Éditions Imaginaires, 218 p., 25 pl.”.

III. ILLUSTRATIONS AND TABLES

Illustrations, line and half-tone drawings or photographs, including graphic **scales**, will be **combined into plates**, preferentially in the limits of 188 × 285 mm (for a 70 % reduction), or calculated to make the dimensions as close as possible to the maximum page dimensions of the *Bulletin* (132 × 200 mm). **Figures** should be numbered from **1 to n**.

Figures should be sent as **separate files, not embedded in the text file. Figures are submitted in TIFF**. JPEG files are usable only if their compression is very low. Illustrations should be at a resolution of at least 450 dpi at final size, 600 dpi for line drawings.

Colour photographs are accepted and preferred, but are printed at the authors expense. Colour plates in the journal are 80 € per page, with a maximum cost of 300 € for a 16 pages booklet. Please ask editors for details. Illustrations can be reproduced in colour on the PDF file and half-tones on the printed version, free of charge; in this case, be sure that captions of illustrations do not refer to colours and that quality of half-tones figures is correct.

Tables are numbered from **I to N** (roman numerals) and have to figure at the end of the paper, after the references.

The place of illustrations and tables in the text may be suggested in the margin.

Figure legends should be listed at the end of the manuscript and arranged **as in the following example**: “Fig. 1-3. – *Anthrenus verbasci* (L.), thoracical structures of the holotype. – 1, Pronotum. – 2, Mesopleural furrow and elytral joint. – 3, Metatrochantin.” or “Table I. – Frequency of hatching of workers according to temperature on the ground.”.

IV. PROOFS

Proofs will normally be sent to the authors; in case of collaboration and unless otherwise informed, it will be sent to the first author. Corrections of the proofs by authors will only concern typesetting errors, without excessive changes in regard to the original version. **Proofs will have to be returned within a week**; after this deadline, it will not be considered or the article will be postponed for publication in a later issue.

Editorial board reserves the right to make minor corrections that are not betraying the thought of authors on manuscript or proofs.

V. REPRINTS

Except for short communications, 25 paper reprints will be sent to the corresponding author. Additional reprints may be ordered, **at extra cost** (about 20 € for 4 pages without colour, minimum in 50 ex.). A PDF file is supplied free of charge; the author will not make this file available online before two years from the date of publication.

VI. COPYRIGHTS

No formal assignment of copyrights is established with authors. However, the request by the author of the publication of his/her manuscript in the *Bulletin de la Société entomologique de France* implies automatically free transfer of copyrights relative to this work, the Editorial board having to ensure its publication and distribution. This transfer also extends to the rights of reprography.
